Work Experience

QSS Analytics | Data Analytics Company   *Azerbaijan*
Front End Intern   *Jul. 2023 – Sep. 2023*
  - Proficiently utilized D3.js, a JavaScript library, to create impactful data visualizations that effectively conveyed complex datasets. Developed various interactive charts, graphs, and visual representations to enhance data analysis and decision-making processes within the data analytics company.
  - Collaborated closely with data analysts and scientists, actively participating in project discussions and translating their data analysis requirements into compelling front-end solutions.

Onlive Media | IT Consultation Startup   *Azerbaijan*
Front End Intern   *Jan. 2023 - Apr. 2023*
  - Stayed up to date with the latest front-end technologies and trends, continually seeking to improve skills and knowledge through professional development opportunities.

211 Studio | Mobile Gaming Startup   *Azerbaijan*
Owner, Developer   *Nov. 2021 - Dec. 2022*
  - Designed and developed engaging games for PC and console platforms using C# programming language and various game engines, such as Unity and Unreal Engine.
  - Worked closely with designers and artists to implement game mechanics, graphics, and animations, ensuring a seamless and immersive player experience.
